25X1C

Dear 

25X1C

The attached are our suggestions for two of the "small meetings". We recommend SAMs first in order to have a couple of days alone  beforehand, similar to that before the big conference a year ago. If anything need be said on Space (which I doubt), it could be said at that time.

We are starting a short review of the estimate in a few minutes - with a short deadline too! But, we will at least get it out of the way.

I hope to get over to see you all at either the meetings or before.

We have two working groups going now, each on a very essential problem - sites and production.

Looking forward to seeing you soon.

Sincerely,

Earl McFarland, Jr.,

**EARL McFARLAND, JR.**  
Colonel, USAF  
Chairman
